## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, non-elected without traverse in the response filed October 13, 2004, has been CANCELED without prejudice.

## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach or fairly suggest the claimed method, in which a length of corrugated tubing, a *polymeric* sleeve, a length of mesh tubing, and the claimed unitary structure are provided (i.e. as *separate* parts), and are then assembled as claimed (using the extending and crimping steps).

One of the closest references is Barton (U.S. Patent No. 2,987,329), which teaches a unitary structure 11, a length of corrugated tubing H, a metal sleeve 20, and a length of mesh tubing B tightly disposed over the corrugated tubing. However, the assembly method comprises positioning the sleeve 20 over the mesh tubing B and corrugated tubing H to form a subassembly, positioning the subassembly within the unitary structure 11, and crimping the sleeve portion 21 of the unitary structure onto the subassembly. The sleeve is not polymeric, nor is it positioned between the corrugated tubing and the mesh tubing, as required by the claimed

Art Unit: 3726

method. Further, there is no motivation to modify the teachings of Barton to arrive at applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **CONTACT INFORMATION**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David P. Bryant whose telephone number is (571) 272-4526. The examiner can normally be reached on Monday-Thursday (6:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on (571) 272-4690. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
